KPC-03-UK
Issue A1

Effective from: 12th May 2025

Introduction

Kinetrol Ltd is committed to operating in an environmentally responsible manner. We recognize our duty to minimize our environmental impact, comply with relevant legal and regulatory requirements, and continuously improve our environmental performance.

Our Environmental Commitments

We pledge to:

- Comply with all applicable environmental legislation and regulatory requirements.
- Establish and maintain an effective Environmental Management System (EMS).
- Prevent pollution and minimize waste generation.
- Improve resource efficiency, including energy, water, and raw materials.
- Promote sustainable practices throughout our operations and supply chain.

Environmental Management System (EMS)

- Identify, assess, and manage environmental risks and opportunities.
- Set measurable objectives to improve environmental performance.
- Implement continual improvement initiatives in environmental management.
- Conduct periodic audits and reviews to ensure compliance with regulatory requirements.

Sustainable Operations

- Reduce carbon emissions through energy-efficient technologies.
- Promote responsible sourcing of materials and reduce environmental impact.
- Implement effective waste management practices, including recycling and reuse.
- Encourage sustainable logistics and transportation solutions.

Employee and Stakeholder Engagement

- Provide environmental awareness training to employees.
- Encourage participation in sustainability initiatives.
- Collaborate with suppliers and stakeholders to uphold environmental responsibility.

Monitoring and Reporting

- Establish clear KPIs (Key Performance Indicators) for environmental performance.
- Conduct regular reviews of environmental policies and objectives.
- Ensure transparency in environmental reporting to stakeholders.

Policy Review

This policy will be reviewed annually to ensure alignment with evolving environmental standards, legal requirements, and best practices.
