REACH Compliance Declaration (EU REACH & UK REACH)

REACH Regulation (EC) No. 1907/2006

Based on information provided by our suppliers and our internal assessments, Kinetrol Ltd does not manufacture or import any substances that require registration under EU REACH (Regulation (EC) No. 1907/2006) or UK REACH. All substances used in our operations are sourced from suppliers who are responsible for fulfilling any applicable REACH registration obligations.

The quantities of substances used by the company are below 1 tonne per year per substance (where and if applicable), and our products do not intentionally release substances under normal or reasonably foreseeable conditions of use.

Based on the current EU/UK REACH Candidate List of Substances of Very High Concern (SVHCs), our products do not contain any SVHCs above the threshold of 0.1% (w/w). We continue to monitor updates to the Candidate List and will revise this declaration if necessary.

Kinetrol Ltd confirms that our products comply with the requirements of REACH Annex XIV (Authorisation List) and do not contain any substances subject to authorisation for the uses relevant to our products. We further confirm that our products comply with all applicable restrictions listed in REACH Annex XVII. Where restricted substances are present in components supplied to us, they are within the permitted limits and conditions defined by the regulation.

Kinetrol remains committed to maintaining compliance with all applicable requirements of EU REACH and UK REACH.
