Effective from: 29th August 2026

Certificate of Origin

Kinetrol Ltd. – United Kingdom Manufacturing Declaration

1. Company & Manufacturing Context

Kinetrol Ltd. is a United Kingdom manufacturer of industrial pneumatic rotary actuators, dashpots, springs and associated control equipment. All design, final machining, assembly, testing, and quality assurance processes are carried out at Kinetrol's facilities in Surrey, England.

Kinetrol products are manufactured and assembled in the UK and supplied globally through subsidiaries, authorised distributors and direct OEM channels.

2. Origin Declaration

Kinetrol Ltd. hereby certifies that:

- **All Kinetrol products are manufactured in the United Kingdom.**
- All final machining, assembly, and final quality-control operations take place at Kinetrol's UK facilities.
- No substantial transformation, assembly, or manufacturing occurs outside the United Kingdom.
- For customs, trade, and regulatory purposes, the **country of origin for all Kinetrol products is the United Kingdom (UK).**

This declaration is provided to support customer documentation requirements for importation, customs classification, regulatory submissions, and supply-chain traceability.

3. Alignment With Other Kinetrol Compliance Statements

This Certificate of Origin is intended to accompany Kinetrol's broader compliance documentation, including:

- Product-specific regulatory declarations
- Material and substance compliance statements
- Regional compliance requirements (e.g., North America, EU, Asia-Pacific)
- Customer-requested conformity or certification documents

It does not replace or modify any regulatory compliance statement but supports correct origin determination for trade and import/export processes.

4. Summary

Based on current manufacturing practices and supply-chain controls, **Kinetrol Ltd. confirms that all products supplied to global customers originate from the United Kingdom for all regulatory, customs, and trade-compliance purposes.**

Kinetrol will update this declaration if manufacturing locations or origin-determining processes change.
