

**THE NON-APPLICABILITY TO KINETROL PNEUMATIC ACTUATORS OF
EUROPEAN COMMISSION PRESSURE EQUIPMENT DIRECTIVE 2014/68/EU
AND UK PRESSURE EQUIPMENT (SAFETY) REGULATIONS
UKSI 2016:1105 (AS AMENDED BY UKSI 2019:696)**

Kinetrol pneumatic actuators are excluded from the scope of the Pressure Equipment Directive / regulations, because they comprise casings where the dimensions, choice of material and manufacturing rules are based primarily on requirements for sufficient strength, rigidity and stability to meet the static and dynamic operational effects and other operational requirements, and pressure is not a significant design factor.

The CE / UKCA markers attached to Kinetrol actuators are required to signify their adherence to other European Commission directives from the scope of which they are not excluded.

J. V. Nash
